

Markham Elementary would like to give a big Thank You to the Markham Volunteer Fire Department for their great presentation on fire prevention. Our students enjoyed learning about fire safety and meeting our local firefighters. Part of the MVFD's presentation included announcing the winners of the "Protect Your Family from Fire" poster contest. Our students' hard work and creativity made it very difficult for the fire fighters to choose the winning posters. Following the indoor presentation, our students were taken outdoors and shown the various fire trucks used in fighting fires.
